## PROFILE SUMMARY

Computer Science graduate with a strong interest in Salesforce CRM. Currently exploring Salesforce using Trailhead and Developer Edition to build practical skills in Sales Cloud, Flows, and Apex. Basic knowledge of Java programming and web development (HTML, CSS, JavaScript). Eager to apply my learning and grow as a Salesforce Developer or Admin through real-world projects and opportunities.

## SKILLS

Salesforce Skills	: Sales Cloud, Leads & Opportunities, Object Management
Development Skills	: SOQL, Java, HTML, CSS, JavaScript (Basics)
Web Technologies	: React.js (Basics), Git
Tools	: Trailhead Playground, VS Code, GitHub

## EDUCATION

Sri Venkatesa Perumal College of Engineering and Technology, Puttur, B.Tech in Computer Science	2021 – 2025
GPA: 7.8/10.0	
Narayana Junior College, Anantapur, Intermediate	2019 - 2021
GPA: 7.4/10.0	
JB High School, Anantapur, SSC	2018 - 2019
GPA: 8.3/10.0	

## PROJECTS

### Developing a Hybrid Image Caption Generator using Deep learning (Academic Project)

**Description:** The goal is to automatically generate a meaningful and descriptive text for a given image, just like a human would, we have used deep learning to build an effective caption system using pre-trained InceptionV3 model to extract features from images and a transformer based model to generate captions. It is trained on COCO 2017 dataset, which contains around 70,000 image caption pairs.

#### Roles & Responsibilities:

- Handled image preprocessing tasks such as resizing, normalization, and formatting images for model input.
- Extracted image features using the pre-trained InceptionV3 model to convert images into meaningful vector representations.
- Enabled URL-based image input, allowing the system to generate captions for images from online sources.

### Personal Portfolio (Demo: [Ajith\\_Portfolio](#))

**Description:** Built and Developed a fully responsive and modern personal portfolio website using basic web technologies such as React and TailwindCSS to showcase my projects, skills, and experience. Deployed on Vercel for fast and free global hosting.

#### Roles & Responsibilities:

- Developed the complete website structure using React.js components for modular and maintainable code.
- Designed a clean and responsive UI using TailwindCSS, ensuring a consistent look across all devices.
- Created dedicated sections for About Me, Skills, Projects, Resume, and Contact with a smooth user experience.
- Deployed the project on Vercel, making the site live and accessible.

## CERTIFICATIONS & TRAILHEAD ACHIEVEMENTS

Salesforce Platform Basics – [Ajith Malle](#)

★ 5+ Trailhead Badges - [Trailhead](#)

Achieved Trailhead Adventure Rank - [Trailhead](#)

QuoteNxt Salesforce Virtual Internship – July 2025
